Nursery on Atlanta Highway

We do all types of landscaping, including grading, lawn preparation and planting, rock work and flagstone laying. We are glad to assist you with any of the problems of your grounds. Call us for free estimates.

The following is a list of plants we have available at our nursery. Our plants are carefully grown and properly dug. Our prices are based on overall size and condition of plants and not on height alone. It is for this reason that we do not attempt to give exact prices for various sizes of plants in this list, but this serves as a guide to enable our patrons to tell the price ranges.

AZALEAS

Azalea—Loveliest flowering plant for the South
Kurume Azaleas — Very Hardy — Dwarf

Pink—Coral Bell, Madame Pericat, Sweet-heart Supreme

Red—Hinodogiri, Hexe, Christmas Cheer

Salmon—Salmon Beauty, Salmon Prince, Salmon Queen, Bridesmaids

White—Snow, Gardenia Supreme

Hardy Japanese — Hardy, Semi-dwarf

Pink—Hinomayo, New Pink, Kaempferi

Red—Flame, Firefly

Lavender—Mauve Beauty, Double Mauve

Macrantha — Hardy — Late Blooming — Low

Pink—Double & Single — Large Flowers

Red—Double & Single — Large Flowers

Indica Azale — Large Growing — Large Flowers and Leaves

White—Indica Alba, Fielders White, Ivoryana

Pink—Elegans, Fisher, Pride of Mobile

Red—Pres. Clay, Dorkin, George Franc

Salmon—Pink—Daphne, Pride of Summerville

Variegated—George L. Tabor, White & Pink

Lavender—Formosa, Perhaps the largest azalea, leaf and flower

We have a limited quantity of many other varieties.

AZALEA prices range from .25c for well-rooted bedded plants to \$3.00 for large specimen plants. Heavily budded plants for spring bloom, most sizes \$1.00 to \$2.00.

CAMELLIAS

Camellia japonica — The most striking flower of the deep South

We have a wide range of varieties and sizes. We list only a few of the most popular.

WHITE

Alba Plena—Best known white, early bloomer

Mathotiana Alba—Late blooming

Purity—Large, double imbricated white

LIGHT PINK

Pink Perfection—Most popular camellia, shell pink

Pink Star—Lovely clear pink, one of the handsomest

Laurel Leaf—Full double imbricated

Debutante—Delicate shade, large peony form, popular

Vera Sacco—Excellent for corsages

Chalmers Perfection—One of the best camellias for Athens

Enric Bettoni—Most popular on West Coast

DEEP PINK

Cheerful—Double, medium size, early

Pink Herme—Sport of the famous variegated Herme

Kumasaka—One of the finest deep pink camellias

Lady Van Sttart—Large, semi-double, narrow leaves

Lady Clare Empress—Largest pink camellia

BLUSH PINK

Magnoliaeflora—Deep rose, fading to light pink near tip

Semi-double Blush—Elegant shape, semi-double delicate

Lady Humes Blush—Similar color to Semi-Double Blush

RED

Brilliant—A splendid full double red, bushy plant

Prince Eugene Napoleon (Pope Pius)—Very double scarlet

Prof. Sargent—One of the best reds, thick peony form

Jarvis Red—Free bloomer, semi-double blood red

Sarnah Frost—Perhaps the best known red.

Mathotiana Rubra (Purple Emperor)—Out-

standing large red

Colonel Firey—Very double rich crimson,

Victor Emaunel—Large blood red peony

form, late bloomer

VARIEGATED

Chandeleri Elegans—Very handsome. Large pink with some white

Herme—One of the best known variegated

Gov. Mouton—Blood red splotted white

Mme. Strekoloff—Large, light pink with crimson stripes

Daikagura—Earliest blooming camellia japonica, rose & white

Fanny Bollis—Large, semi-double, red and white, large leaves

There are hundreds of other camellias, colors, and varieties too numerous to list. We can furnish most of the well known camellias and gladly take orders for the rare or unusual ones.

We give the best possible values in camellias. Our prices are based not only upon height, but on stockiness of plants and cost of production. We offer—Rooted cuttings and liners to \$1.00. Branched plants of blooming sizes \$1.00 to \$7.50.

Camellia sasanqua—These hardy camellias are easier to grow than *Camellia japonica*s. They are fast growing, bloom in fall, and can stand full sunlight. The blossoms are smaller than *Camellia japonica*, but make excellent ornamental plantings and screens.

Double White (Mine-No-Yuki) (Snow on the Mountain)—This is our favorite of the sasanquas. Double white like a carnation.

Rosea—Deep rose pink like a cherokee rose

Cleopatra—Deep cherry red—similar to

Rosea, but smaller leaves.

White Butterfly—White with pink tips

Crimson Bride—Crimson, single flower, large

Maiden Blush—Light clear Pink

There are many others, but we consider these the choice varieties.

AZALEA AND CAMELLIA CULTURE

Azaleas and Camellias are not hard to grow if a few simple rules are followed:

1. They do best in an acid soil, with lots of organic matter such as leaf mould, woods soil, and peat moss.

2. The organic matter (but no manure) should be worked into the soil in a large hole before planting.
 3. They should not be planted deeper than they grew in Nursery.
 4. They should not be worked, but should be kept covered with 2 to 4 inches of mulch of pine straw, shavings or partly decayed leaves.
 5. They should be fertilized with special azalea camellia fertilizer in April, June, and November.
- We carry Reliance Azalea-Camellia Fertilizer**
6. They should be watered often throughout the summer.
 7. They should be sprayed with Volck or similar oil emulsion spray in April and September.
 8. If leaves become pale or yellow, spray with iron sulphate. (One to two teaspoons to one gal. of water.)

BROAD LEAVED EVERGREENS

- Abelia**—An old standby for foundations and hedges \$0.25 - \$1.50
- Abelia**—Pink flowering, a new attractive variety \$0.75 - \$1.50
